The National Sorority of Phi Delta Kappa, Inc. and the NSPDK e-Learning Academy notifies all users that neither will accept legal liability for the information on the websites. Nor will either accept liability for any uses by persons who read, use the websites, or use materials presented on the websites.

NSPDK e-Learning Academy is an educational resource bank for gaining web-based information for teaching and learning. It is not a school. The material presented is for information only. It does not present individual course certifications, warranties, licenses, or validations of state standards. References to any specific commercial products, processes, or services by trade name, trademark manufacturer, or otherwise, does not constitute or imply endorsement, recommendation, or favoring by the institutions. Online resources are not meant to and cannot replace the specialized training and professional judgment provided by educational professionals, or an attorney. Any unauthorized use or modification to materials presented on this website is strictly prohibited.

INTRODUCTION

The ***NSPDK e-Learning Academy*** has been designed to focus on teaching and learning in three phases. **PHASE I – Resources**...offers a wide variety of free on-line electronic links to connect learners to skills, subjects, and tools which will be used to access specific learning needs. **PHASE II – Webinars**...will present online **training** on how-to use technology platforms to teach students and present vibrant lessons by incorporating new online programs. **PHASE III – Demonstration Lessons**....will feature master teachers presenting online lessons that incorporate various Webinar techniques into student lessons.

Each resource takes students directly to the sites for grade specific skills and specific subjects or courses. The links are not specific to a designated State's Board of Education Standards. The links are specific to skills for various levels of learners: early learner, middle school, high school, college, or adult learner, Experienced K-12 educators, including college and university instructors, throughout the United States have used these resources successfully in their classrooms with individual students, and classrooms, and small or large student groups.

Educators and parents who visit this website are encouraged to explore the links identified for each grade level, review the educational material identified according to learning styles, and recommend the appropriate links for or to students with various need. This ***NSPDK e-Learning Academy*** may be used in assistance with individual or small group tutorial sessions, afterschool programs, and help students acquire additional skill building.

NATIONAL SORORITY OF PHI DELTA KAPPA, INC.

Welcome to the **NSPDK e-Learning Academy!**
"Necessity is the mother of invention." Plato

Etta F. Carter, Ph.D.
2017-2021 Supreme Basileus
nspdksupreme@gmail.com

It is my pleasure to welcome teachers to the newly established professional development program appendage of the National Sorority of Phi Delta Kappa, Inc. The members are extremely excited to present to the public this online web-based resource, the **NSPDK e-Learning Academy**, designed to offer education professionals, parents, and students quick and easy web-based access to learning skills for a wide continuum of learners.

The **NSPDK e-Learning Academy** was created out of a specific need developed during the outbreak of the Coronavirus pandemic in March 2020. For the first time in the history of public education all states have closed at least one school in order to prevent the spread of the virus. Sixty percent of the nation's public schools remain closed two months later and will not reopen during this traditional school year. Although the **NSPDK e-Learning Academy** was an outgrowth of a need during the pandemic it is projected that e-Learning is here to stay. This is the beginning of full integration of e-Learning into all of education from hence forth.

Thank teachers to all of the members of the professional development committee of the National Sorority of Phi Delta Kappa, Inc. and those who will voluntarily contribute in the future to this most critical educational resource.

NSPDK e-LEARNING ACADEMY

Welcome to the NSPDK e-Learning Academy! The educators of National Sorority of Phi Delta Kappa, Inc. are pleased to present this website of resources to our colleagues, families, and friends. The COVID-19 Pandemic has changed the way we teach and how our children learn. As educators, we are aware that the paradigm shift in teaching in front of children is changed forever.

The committee members saw a need to help their colleagues and the populations they serve. Our “new normal” dictates that educators need a bank of e-resources to help them do their best during this era of remote teaching/learning.

The educators of the National Sorority of Phi Delta Kappa, Inc. are eager to share their knowledge and expertise with teachers. We have compiled a list of platforms and programs to assist teachers in this age of remote learning.

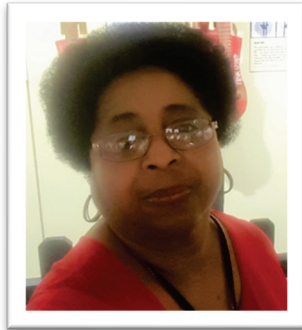

As the nation continues to use remote learning, we encourage teachers to visit our site often and take advantage of the resources that have been compiled for teachers. We are sure that teachers will be pleased with the variety of grade and age appropriate programs listed.

Salute to our new normal, remote learning using the **NSPDK e-LEARNING ACADEMY!**

Noreen E. Little

2019-2023

Welcome! NSPDK e-Learning Academy

It is with great excitement that I introduce teachers to the NSPDK e-Learning Academy Resource. Each time we open our mail, be it snail or e-mail, we are bombarded with new platform and tool notifications. They invite us to try different strategies to better meet the needs of our students. How nice it would be to have resources housed in one place, so we can visit, explore, and make decisions about educating our students, with distant education, in a timely manner.

NSPDK e-Learning Academy will serve as a resource to help us navigate the waters that are new to some of us and make the navigation easier for accomplished users. We are being asked to rethink our methods and use new strategies that engage our students, as they participate in distance education and e-Learning settings. We must not fail; this resource will be a great benefit in the task that is before us.

I encourage teachers to interact with the document as teachers will surely find tools to help teachers as teachers plan and implement lessons. We know not what our educational systems will look like as we move forward to the next few months, but we do know our job duties have shifted to a new and exciting norm. In many cases it will involve teaching learners from a distance. The NSPDK e-Learning Academy will serve teachers well, as teachers tasks become inclusive of so many new methods and platforms. As facilitators of distance education, we will surely continue to prepare our students for the world they must manipulate, even as they become efficient with the new resources.

I am a kindergarten teacher from Gary, Indiana. I am a member of the Beta Mu Chapter, where Onitta Parker is my Basileus. In Beta Mu chapter I currently serve as chapter Tamiouchos and work on several committees and projects. Although teaching and learning during the next school year is uncertain for all educators at this time, I am assured that it will include e-Learning. For this reason, the launching of the NSPDK e-Learning Academy makes me extremely happy because this resource will be available to guide teachers, parents, and students.

Warmest regards,

Nora A. Robbs
National Professional Development and Leadership Committee Chair
